

Accessibility Plan

2025-2028

At Lealholm Primary School our values reflect our commitment to a school where there are high expectations of everyone. Children are provided with high quality learning opportunities so that each child attains and achieves all that they are able to. Everyone in our school is important and included. We promote an ethos of care and trust where every member of our school community feels that they truly belong and are valued. We work hard to ensure there are no invisible children here, recognising everyone's uniqueness and success. We recognise learning in all its forms and are committed to nurturing lifelong learners. We are a safe school, committed to improving children's confidence and self-esteem. We know that safe and happy children achieve.

This Accessibility Plan is drawn up in compliance with current legislation and requirements as specified in Schedule 10, relating to Disability, of the Equality Act 2010. School Governors are accountable for ensuring the implementation, review and reporting of progress of the Accessibility Plan over a prescribed period (2025-2028).

The Equality Act 2010 replaced all existing equality legislation, including the Disability Discrimination Act. The effect of the law is the same as in the past, meaning that "schools cannot unlawfully discriminate against pupils because of sex, race, disability, religion or belief and sexual orientation".

According to the Equality Act 2010 a person has a disability if:

- (a) He or she has a physical or mental impairment, and
- (b) The impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

We understand that the Trust will monitor the school's activity under the Equality Act 2010 (and in particular Schedule 10 regarding Accessibility) and will advise upon the compliance with that duty.

Aims

Lealholm Primary School is committed to providing an environment that enables full curriculum access that values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to taking positive action in the spirit of the Equality Act 2010 with regard to disability and to developing a culture of inclusion, support and awareness within the school.

The school recognises and values parents' knowledge of their child's disability and its effect on their ability to carry out everyday activities and respects the parent's and child's right to confidentiality.

The Accessibility Plan contains objectives to:-

1. Increase access to the curriculum for pupils with Special Educational Needs and Disabilities expanding the curriculum as necessary to ensure that pupils with a disability are as equally prepared for life as the able-bodied pupils (if a school fails to do this they are in breach of their duties under the Equalities Act 2010). This covers teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or schools visits – it also covers the provision of specialist or auxiliary aids and equipment, which may assist these pupils in accessing the curriculum within a reasonable timeframe.
2. Improve and maintain access to the physical environment of the school, adding specialist facilities as necessary – this covers improvements to the physical environment of the school and physical aids to access education within a reasonable timeframe.
3. Improve the delivery of written information to pupils, staff, parents and visitors with disabilities. Examples might include hand-outs, timetables, textbooks and information about the school and school events. The information should be made available in various preferred formats within a reasonable timeframe.

Objective No.	Person(s) responsible	Timescale	Actions to achieve:
1	Headteacher Class teacher SENCo	Ongoing	- Ensure Evolve is used to consider adaptations to all curricular and extra-curricular activities. - Use 1:1 teaching assistants (as appropriate) to support children's access to the entire curriculum. - Communication between staff and parents of children with SEND, to ensure all needs are met during the implementation of the curricular and extra-curricular. - IEPs and EHCP actively reflect the adaptations required (if any) for children with SEND to be successful in and out of the classroom.
2	Headteacher H&S adviser	Ongoing	- Any new issues are identified. - Advice from occupational therapists sought to inform classroom environments. - Environments reflect whole-school provision maps, to ensure all learners are able to access the curriculum and classroom. - The most recent research is used to inform classroom environments and their impact of children, especially those with SEND. - Pupil voice is heard and acted upon.
3	Admins Headteacher	Ongoing	- Information is presented in ways that are easy to access. - Translated/adapted versions are easily available via the office. - Translation function available on website. - Additional support is offered for those unable to access written information.

Equality Objectives

Across the Trust, and in line with the national context, we have identified that there is a gap between the attainment of pupil premium children and non-pupil premium children. We are aiming to eradicate this. More details on this can be found in our [Pupil Premium Strategy](#).

There is also a significant gap between the attainment of children with SEND and those without. We are exploring ways to accelerate progress of these children, using the most recent research to inform our practice. As our cohort of children with SEND is small, this information cannot be published, to maintain anonymity.

We have identified many vulnerable children in our Trust and have therefore participated in the National Nurturing School Programme, using the Boxall Profile to assess and track social and emotional wellbeing in order to support the emotional wellbeing of all children. This is evidenced in our progress against the Nurture Schools assessment framework and our achievement of the National Nurturing Schools Award in 2023.

Reasonable adjustments made by the school

- From September 2012 schools and local authorities have a duty to supply auxiliary aids and services as reasonable adjustments where these are not being supplied through Special Educational Needs (SEN) statements/Educational Health Care Plans (EHCP) or from other sources. Additional high needs funding may be available on application to the local authority.
- The school brochure or any other written information can be made available in large print, or translated into different languages if requested.
- Standards of behaviour are differentiated and support is put in place for those pupils who find it difficult to behave well.
- Individual Education Plans have been developed to support a range of areas of need (Cognition and Learning including dyslexia; Communication and Interaction including Autistic Spectrum Disorder and Speech, Language and Communication Needs; Social, Mental and Emotional Health and Physical and Sensory needs). The school records adaptations to provision in the children's individual records.
- Individual Education Plans are discussed with the children and their parents/carers and progress against targets is discussed.
- Planning is adapted to allow all pupils to participate. All pupils are able to participate in extra-curricular activities, including educational visits and residential stays.
- Different forms of communication are made available to enable all pupils to express their views and to hear the views of others.
